TARGET	4-5	TARGET	4-6	TARGET	4-7
					
					
	<p><b>ELIMINATE ALL DISCRIMINATION IN EDUCATION</b></p>	<p><b>UNIVERSAL LITERACY AND NUMERACY</b></p>	<p><b>EDUCATION FOR SUSTAINABLE DEVELOPMENT AND GLOBAL CITIZENSHIP</b></p>		

**“Online education is electronically supported learning for teacher/student interaction and the distribution of class materials.”**

With online education, students can turn anywhere with Internet access or USB Drive and electricity into a classroom. It can include audio, video, text, animations, virtual training environments and live chats with Teacher. It's a rich learning environment with much more flexibility than a traditional classroom.

## Virtual classroom enables students to access quality teachers anywhere on the planet

This can break down most of the common barriers to synchronous learning: cost, distance and timing.

- Video conferencing ability (so teachers and students can see each other)
- Audio conferencing(so participants can hear each other)
- Real-time text chat.
- Interactive online whiteboard (so users can interact on the same online page).
